

SHANMUGA R

shanmugaramesh28@gmail.com | +91 7695816411 | Villupuram, India

Software Developer and Data Science graduate with strong skills in application development, data analysis, and machine learning. Passionate about building scalable, data-driven solutions with clean and efficient code. Eager to apply technical knowledge and problem-solving skills to contribute to innovative software projects.

SKILLS:

- Python
- MySQL
- Power BI
- Excel
- Tableau
- Deep Learning
- Data Science(AI)
- Java Selenium
- Automation Testing

WORK EXPERIENCE:

NIGSOFT PRIVATE LIMITED- Software Testing(Superjet Webapplication) May 2024 - Feb 2025

- Developed and executed end-to-end automation testing scripts to validate critical web application workflows.
- Identified edge cases, functional issues, and performance bottlenecks to improve application reliability.
- Verified seamless website functionality and enhanced overall user experience through systematic testing.
- Prepared detailed test execution reports and bug documentation to support faster debugging and development.
- Collaborated with the development team to resolve defects and ensure timely delivery of high-quality software.

NIGSOFT PRIVATE LIMITED - Backend developer (Albumati Mobile Application)Dec 2024 - May 2025

- Analyzed legacy application code and workflows to understand system functionality and support feature enhancements.
- Performed manual testing of backend changes to ensure they met client requirements and functional expectations.
- Identified, reported, and tracked MySQL database and API-related issues, contributing to improved system stability.
- Supported User Acceptance Testing (UAT) by validating application functionality and documenting test results.
- Collaborated closely with the development team by assisting in debugging, testing, and delivering optimized software solutions.

NIGSOFT PRIVATE LIMITED - Backend developer(Lawe Web Application) Aug 2024 - Dec2025

- Developed and enhanced the search engine functionality for the Lawe web application based on business requirements.
- Migrated data from MySQL to MongoDB using Python, ensuring accurate and efficient data transfer.
- Analyzed project requirements and implemented backend functionality in Python according to assigned user stories.
- Collaborated with the development team to deliver code enhancements and implement application changes based on client requirements.

DATASCIENCE - (Course)

- Completed a comprehensive Data Science course covering Python, SQL, Statistics, and Machine Learning, PowerBi, Excel, Tableau.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Python libraries such as Pandas and NumPy.
- Built basic Machine Learning models for classification and regression using Scikit-learn.
- Worked with SQL queries to retrieve, filter, and analyze structured data from databases.
- Created interactive dashboards and reports using **Power BI** and **Tableau** to visualize business insights and key performance metrics

EDUCATION:

B.TECH - Information Technology (Nandha College of Technology)

July 2016 - May 2020

- Completed Bachelor of Technology in Information Technology from Nandha College of Technology, Erode with 65% in 2020.,

KEY ACHIEVEMENTS:

- Learned Live Server setup, hosting, and deployment independently within two weeks despite having no prior experience.
- Successfully migrated data, implemented the required changes, created a new hosting environment, and deployed the application to run successfully..

COURSES s CERTIFICATIONS:

- Successfully completed a Data Science training program in Python, SQL, DataAnalysis and Machine Learning.(**Institution Name:BESANT TECHNOLOGIES**)
- Completed Java and Selenium Testing course, gaining hands-on experience in automation testing and test script development.(**Institution Name:GREEN TECHNOLOGIES**)
